## Foreword

India is the land of farmers where the maximum proportion of rural population depends on agriculture, but unfortunately the crop production depends on mercy of nature. Looking towards the present climatic vulnerabilities, a new crop damage insurance scheme “*Pradhan Mantri Fasal Bima Yojana* (PMFBY)” was launched in January 2016. Though the scheme was approved at the start of the year, still many of the farmers are unaware and reluctant to get them enrolled. The success of the scheme lies in increasing awareness amongst the farmers towards this. In this regard, an effort was made by ICAR-ATARI, Zone-1 by initiating sensitization programmes on PMFBY through their KVKs from 30<sup>th</sup> March 2016. Till date about 62 programmes were conducted by KVKs of zone-1 in total benefiting more than 37,000 farmers of northern India. First time a huge campaign was organised with the active participation of public representatives in collaboration with other supportive agencies like Department of Agriculture, Horticulture, Animal Husbandry, Banks, Insurance companies, press, media etc. In these programmes 04 Cabinet Ministers, 06 State Government Ministers, 18 Member of Parliaments (MP), 24 Members of Legislative Assembly (MLA) along with other important dignitaries has shown their valuable presence. During the programmes, farmers were sensitized towards PMFBY along with showcasing the latest agricultural technologies, distribution of soil health cards and telecasting video films on PMFBY.

I congratulate the entire teams of KVKs for their collaborative effort in popularisation of this mega scheme and the editorial board in compiling the events in the form of report as a ready reference material.

## Preface

Agriculture plays a significant role in Indian food supply to feed the alarmingly growing population. As crops cycle is vulnerable to vagaries of nature which would be experienced through intense heat waves, storms, cyclones, changes and other extreme climatic events, disease; pests; weeds etc. Such changed monsoon patterns would adversely affect sowing and harvesting periods of many staple crops decreasing their productivity. In some extreme cases these unfavourable events of low productivity, less income and high loans taken for agriculture becoming major factors leading to farmer's suicides which are now assuming serious proportions.

Therefore to cope up with these kinds of situations, agricultural insurance is playing a pivot role to stabilise farm income and investment and guard against large scale damage and vagaries of weather. The objective of PMFBY is to provide insurance coverage and financial support to the farmers in the event of failure of any of the notified crop as a result of natural calamities, pests and diseases. This scheme is of immense help to farmers, providing them with financial security. Care had been taken to eliminate the shortcomings of previous crop insurance schemes, and create trust among farmers with regard to crop insurance.

From its inception, KVKs has established itself as a front runner in extension activities in the country. In view of the changing scenario of agriculture, the mandated activities of KVKs are being changing from time to time to address the newer challenges. This time the focus of these KVKs was to motivate the farming community for successful implementation of various agricultural schemes that directly influence their livelihood and economic security. It our privilege to put before you the salient achievements in the form of “Highlights of PMFBY in Zone-1” for your perusal.

We acknowledge with gratitude the intellectual advice from Dr. A.K Singh, Deputy Director General (Agrl. Extn.), Dr V.P Chahal (ADG), Dr. Randhir Singh (ADG) and Dr. Rajbir Singh, Director, ICAR-ATARI in bringing out this publication. This report is an outcome of tireless effort made by our KVKs. We wish to specially thank the entire KVK teams.

## Summary of awareness programmes on Pradhan Mantri Fasal Bima Yojana in Zone-1

In zone-1, during 2016-17 various awareness cum sensitization programmes were conducted with the aim to popularise the recently launched 'Pradhan Mantri Fasal Bima Yojana (PMFBY)' among the farming community. During this campaign, a total of 62 one day *farmers fair-cum-awareness programmes* were conducted with active participation of 04 Union Cabinet Ministers, 18 Member of Parliaments (MP), 06 State Government Ministers, 24 Members of Legislative Assembly (MLA), 84 other important dignitaries, bank officials and 37806 numbers of farmers from every nook and corner of the various states participated with gaiety and fervour, along with huge participation from agriculture, horticulture and veterinary officers, press and media. KVK scientists besides making awareness among farmers about the PMFBY through video films, also showcased the low cost technologies on various aspects of agricultural development. Along with this officers of various line departments viz. Agriculture, Horticulture, Floriculture, Animal husbandry gave details about the on-going schemes for the benefit of farming community and technical knowledge were imparted to them in different aspects of agricultural development. In nutshell, these awareness programmes have created huge impact among the farmers w.r.t to insurance for their crops and brought the KVKs into the mainstream of the society.

## Details of the Scheme

### Need of PMFBY

The farmers are the backbone of our agricultural economy. Despite technological and economic advancements, the condition of farmers continues to be unstable due to natural calamities and price fluctuations. It leads to heavy loss to our farmers who rely only on farming. Hence, the interests and investments of farmers need to be safeguarded by crop insurance. Crop insurance is the way to stabilize farm income and help the farmers to initiate production activity after a bad agricultural year. It cushions the shock of crop losses by providing farmers with a minimum amount of protection.

The Union Cabinet chaired by the Prime Minister Narendra Modi on 13 January 2016 approved the New Crop Insurance Scheme, Pradhan Mantri Fasal Bima Yojana (PMFBY). The present PMFBY will replace the existing two schemes National Agricultural Insurance Scheme as well as modified NAIS which have had some inherent drawbacks. PMFBY which was implemented from the last year Kharif season in every state of India, with association with the respective State Governments. This crop insurance scheme is administered under the Ministry of Agriculture and Farmers' Welfare, Government of India.

### Aim of the scheme

- To provide insurance coverage and financial support to the farmers in the event of failure of any of the notified crop as a result of natural calamities, pests & diseases.
- To stabilize the income of farmers to ensure their continuous process in farming.
- To encourage farmers to adopt innovative and modern agricultural practices.
- To ensure flow of credit to the agriculture sector.
- To increase the insurance coverage to 50 per cent of the total crop area from the existing level of about 25-27 per cent crop area.

### Features of the scheme

- There will be a uniform premium of only 2% to be paid by farmers for all Kharif crops and 1.5% for all Rabi crops. In case of annual commercial and horticultural crops, the premium to be paid will be only 5%. The remaining share of premium will be borne equally by the central and respective state governments.
- Insuring income of the farmer and not crop per se. The premium rates to be paid by farmers are very low and balance premium will be paid by the Government to provide full insured amount to the farmers against crop loss in any natural calamities.
- There is no upper limit on Government subsidy. Even if balance premium is 90%, it will be borne by the Government.

- Earlier, there was a provision of capping the premium rate which is low claims being paid to farmers. Now this is removed and farmers will get claim against full sum insured without any reduction.
- Provide prompt and easy settlement of claims through the use of technology like GPS, smart phones, remote sensing and drones to access actual crop damage.
- 25 per cent of the likely claim will be settled directly on farmers account.
- Allocation of the scheme presented in budget 2016-2017 is Rs.5,550 cores.
- PMFBY is a replacement scheme of National Agriculture Insurance Scheme (NAIS) and Modified National Agriculture Insurance Scheme (MNAIS) and hence exempted from the service tax.

#### **Implementing Agency (IA) of PMFBY**

- Implemented by multiple insurance companies but under overall control of Ministry of Agriculture & Farmers Welfare. The Ministry designated/empanelled Agriculture Insurance Company of India (AIC) and some private insurance companies presently to participate in the Government sponsored agriculture/crop insurance schemes. The choice of which private company is left to the states. There will be one insurance company for the whole state.

#### **Coverage of the farmers**

- All farmers growing notified crops in a notified area during the season who have insurable interest in the crop are eligible.
- Compulsory coverage to farmers in the notified area who possess a Crop Loan account/KCC account (called as Loanee Farmers) to whom credit limit is sanctioned/renewed for the notified crop during the crop season.
- Special efforts shall be made to ensure maximum coverage of SC/ ST/ Women farmers under the scheme.

#### **Sum Insured/Limits of Coverage**

- In case of Loanee farmers under Compulsory Component, the Sum Insured would be equal to Scale of Finance for that crop as fixed by District Level Technical Committee (DLTC) which may extend up to the value of the threshold yield of the insured crop at the option of insured farmer.
- Multiplying the Notional Threshold Yield with the Minimum Support Price (MSP) of the current year arrives at the value of sum insured. Wherever Current year's MSP is not available, MSP of previous year shall be adopted.
- The crops for which, MSP is not declared, farm gate price established by the marketing department / board shall be adopted.

### Premium Rates

S.No	Season	Crops	Maximum Insurance charges payable by farmers (% of Sum Insured)
1.	Kharif	Food and Oilseeds crops (all cereals, millets & oilseeds, pulses)	2.0% of SI or Actuarial rate, whichever is less
2.	Rabi	Food and Oilseeds crops (all cereals, millets & oilseeds, pulses)	1.5% of SI or Actuarial rate, whichever is less
3.	Kharif & Rabi	Annual Commercial/Annual Horticultural crops	5% of SI or Actuarial rate, whichever is less

### Risks to be covered

- **Yield losses** (standing crops, on notified area basis): Comprehensive risk insurance is provided to cover yield losses due to non-preventable risks, such as
  - (i) Natural Fire and Lightning
  - (ii) Storm, Hailstorm, Cyclone, Typhoon, Tempest, Hurricane, Tornado etc.
  - (iii) Flood, Inundation and Landslide
  - (iv) Drought, Dry spells
  - (v) Pests/ Diseases etc.
- **Prevented sowing** (on notified area basis): In cases where majority of the insured farmers of a notified area, having intent to sow/plant and incurred expenditure for the purpose, are prevented from sowing/planting the insured crop due to adverse weather conditions, shall be eligible for indemnity claims up to a maximum of 25% of the sum-insured.
- **Post-harvest losses** (individual farm basis): Coverage is available up to a maximum period of 14 days from harvesting for those crops which are kept in “cut & spread” condition to dry in the field after harvesting, against specific perils of cyclone/ cyclonic rains, unseasonal rains throughout the country.
- **Localised calamities** (individual farm basis): Loss/damage resulting from occurrence of identified localized risks i.e. hailstorm, landslide, and Inundation affecting isolated farms in the notified area.
